

DAYLILIES are so named for their blooms which last only a day, but with so many buds on each stem, they provide a long season of bloom. All these Daylilies are easy to grow, withstand neglect and combine well with many other perennials. They are wonderfully heat and drought tolerant!

HEMEROCALLIS

Autumn Red

Black-Eyed Stella

Stella de Oro

Catherine Woodbury

Hyperion

Chicago Apache

Lullaby Baby

Joan Senior

Happy Returns

Bonanza
